The
Great Register
Of

Orange County
State of California

Compiled in 1996 By
Orange County California Genealogical Society
@ Huntington Beach Central Library
7111 Talbert Avenue
Huntington Beach, CA 92648

Digitized
2012

A Great Register is a list of all registered voters in California for any given election. They were compiled on a county by county basis. These list contain only males over the age of 21. In 1990 the California State Genealogical Alliance (CSGA) proposed the publication of an index to these voter registration lists for 1890 to be used as a substitute for the mission 1890 Federal Census. CSGA then asked that genealogy societies volunteer to index the register for their county. Volunteers were also sought to index those counties which did not have a genealogy society. When all of the counties have been indexed on computer databases the information will be forwarded to CSGA where it will be combined and published in one large index covering the entire state.

Orange County California Genealogical Society (OCCGS) volunteered to do the indexing for the Orange County. We were fortunate to have find copies of Orange County on microfilm at the Los Angeles Public Library, which holds copies of the originals. Carol Mc Cracken went to the library and painstaking did our copies of Orange County. To which Bob and Carol (Sausman) Mc Cracken indexed all pages of Orange County. Then we had a team of people edit said pages, these people include: Jean Chinnici, Pat De Cou, Jean Stewart, Carol Mc Cracken, and Chairperson Rosanne Byrne. I wish to Thank my husband Bob Mc Cracken for all the hours of computer help he put in to achieve our finished product.

The Orange County section is on 40 pages, a primary set of 30 pages and an appendix of ten pages. Note some are alphabetical per letter, but not within the letter area. We have put together two sorts per surname and by page.

If you find someone in the index and want more information it would be advisable to go to the original. Copies of these registers are available on microfilm through the Family History Library in Salt Lake City, and many of our public libraries in California.

The following codes were used to indicate citizenship information for foreign born voters.

N - Indicates the date and place of naturalization is on the original.

F - Indicates the voter's father was naturalized while the voter was a child.

X - Indicates there is additional information regarding the voter's naturalization.

Where there was unusual information given or pertinent information was mission or illegible it has been noted in the comments column.

We at OCCGS Wish to Thank WAGS (Whittier Area Genealogical Society), for their assistance in getting the correct program and format.

1996
