CENTRAL INSTITUTE
FOR GENEALOGICAL RESEARCH

AMSTERDAM · BERLIN · BONN · BRUXELLES · LONDON · MADRID · PARIS · ROMA

REF.

DATE: Mar. 14, 1978

Dear Sirs,

re: Foundation of "CIGENE".

You may be interested to learn that hitherto independently organized European Genealogical Institutes have amalgamated under the name of

CENTRAL INSTITUTE FOR GENEALOGICAL RESEARCH
"C I G E N E". .

It is the purpose of this Society to help you find the place where your Forefathers once set out on their burdensome voyage from the "Old World" across the "Great Pond" to what is now your country.

In our work, in many cases we closely co-operate with those genealogical institutes throughout the U.S.A. our customers have consulted to trace their American ancestry.

For general details, please, consult attached information sheets.

On request, we shall be pleased to compile your own tailor-made Ancestry Research Programme for a full investigation, or contact -on your behalf- your local ancestral institute to supply them with the European part of your Family History.

Your enquiry will find our preferential attention.

Yours faithfully,

DATA:

What we need to get started is four items of information;

so, all you have to do is to furnish us with below-mentioned data on the senior members of your family (e.g. parents or grand parents):

- (i) degree of relationship,
- (ii) full name and address,
- (iii) date of birth,
- (iv) place of birth.

COST?

Before a firm order is placed, we shall -with your data on hand- conduct a pre-investigation, on the strength of which a forecast will be made out.

The pre-investigation mainly serves the purpose of exploring the prospects of a continuous individual genealogy.

As special mode of payment, the Step System has proved to be a very reasonable solution:

in the Step System you pay only as far as you are prepared to walk your own line of descent;

in other words, the current process of investigation may be interrupted anywhere, anytime, either for good, or to be continued some other time.

WHERE?

Established in Bonn (West Germany), which is right in the centre of the "Old World",

with branch offices in nearly all major communities all over Europe,

privileged with access to all national archives, local records, and parish registers.

WHAT?

In a thorough and scientific approach official registers are consulted to find evidence of the course of life the forefathers in question took at particular times.

In cases where conventional accounts and methods fail, genealogists, specializing in the large field of tracing family descent, conduct extensive investigations, de-code monumental inscriptions, interpret Celtic letters, runes, and symbols (e.g. those hewn in Saint Patrick's Crosses in Ireland), decipher seals and coins, consult census returns, passenger lists, wills, deeds, etc.

All facts possibly accessible are then collected, evaluated, analyzed and compiled to form a continuous line of ancestors, which in some cases may reach back to the 12th century.

By way of experience, in most of the cases even Retrace Genealogies may be set up:

By definition of the House R E T R A C E stands for the genealogization of those ancestors as did n o t emigrate to America,

but stayed in the Old World, instead;

in other words, we start from the lowest "root stock" of the genealogical "tree" centuries back, in order to compile the lineage of ancestors to the present day.

HOW?

Basically, we offer f o u r alternative execution to choose from:

- (1) "P" i.e. PLAIN execution, comprising:

listing of names, dates, and facts.
- (2) "P/R" i.e. PLAIN execution with RETRACE.
- (3) "S" i.e. SOPHISTICATED execution, comprising:

listing of names, dates and facts, supported by confirmed photostats of old documentary evidence (showing your ancestors' names); historical background (e.g. Hessian troops, Great Famine, religious coercion, etc); copies and coloured re-prints of old maps; photographs (slides available on request); CIGENE Folder (bound in leatherette or genuine leather, with your name in gilt letters on the cover); translations into English (if necessary); explanation of meaning of name (if possible); etc.
- (4) "S/P" i.e. SOPHISTICATED execution with RETRACE.

Betrifft: Your great grandfather, John Pius Gutzweiler

Dear Mr. Blauer,

in the registry Bonn I, Bonn II, Bonn III and Bonn IV there doesn't exist a birth certificate of John Pius Gutzweiler.

As you don't know the exact birthplace of your great grandfather I have sent up your letter to the

Personenstandsarchiv I
Schloß Brühl
D-5040 Brühl .

In the Personenstandsarchiv I there are collected birth-, marriage- and deathcertificates of the area North-Rhine. This is a part of the federal state Nordrhein-Westfalen (one of the 11 states of the Federal Republic of Germany).

I hope you will get the desirable certificates from this administration office.

Yours sincerely

CONSULATE
OF THE
UNITED STATES OF AMERICA
Poznan, Poland

July 28/78

Mr. James F. Blauer
418 Pirate Road
Newport Beach, California 92663

Dear Mr. Blauer:

I refer to your letter of June 24 regarding genealogical and biographical data on your family in Poland.

The Consulate cannot perform the genealogical research your desire. However, we have been informed that such a study may be undertaken by the following Polish institution:

Naczelna Dyrekcja Archiwow Panstwowych (Central Office of National Archives)
00-263 Warszawa
ul. Długa 6
Poland
Phone: 31-32-06

If you desire the assistance of this institute you should write a letter stating your request to include the following information:

First and last name (the original spelling if changed)

Date and place of birth and death (as appropriate)

Date and place of marriage and the names of spouse

Religion at birth

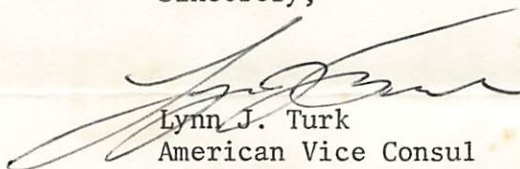

Identification of places should include name of locality, administrative unit, province (województwo, gubernia) or nearby cities and rivers. Photocopies of any documents such as passports, old identity cards, documents pertaining to property, old letters may be helpful in searching for the required information. A comparison of pre-war and post-war atlases may reveal changes in place-names. It is suggested that before contacting the institute, you do some research in the United States in order to establish the original spelling of family names. This information is often contained in old immigration records which may be found in the American Congress of Polonia, Buffalo, N.Y. or in the Library of Congress in

Washington, D.C. An Immigration file number is sometimes included in the documents granting titles to property.

Upon receipt of the necessary information the Polish National Archives will make a preliminary search to establish whether the necessary registers exist (many were destroyed during the war). If records exist, the Archives will ask you to make a preliminary payment in the amount of \$20.00.

The amount of time required to conduct the search and the number of documents prepared (reproductions, photocopies, and so forth) will determine the total fee which usually ranges from \$100.00 to \$200.00.

Sincerely,

Lynn J. Turk

Bezug Ihr Schreiben vom 24.6.1978 an das Standesamt
Bonn

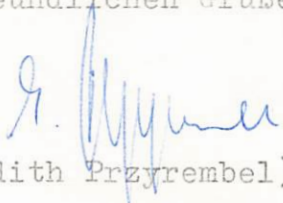

Sehr geehrter Herr Blauer!

Ich darf auf das anliegende Schreiben verweisen, mit dem ich Ihnen mitgeteilt habe, daß Nachforschungen größeren Umfanges dienstlich nicht durchführbar sind. Ich schrieb Ihnen auch, daß in Bonn, Köln und Düsseldorf vereinzelt Namensträger Gutzweiler bzw. Gutzweiler festzustellen gewesen sind, die Geburtsurkunde Ihres Großvaters konnte aber nicht ermittelt werden.

Ihren Angaben zufolge soll Ihr Großvater aus dem Rheinland gekommen sein. Es müßten hier also noch die Unterlagen von rund 400 Ämtern durchgesehen werden; der südliche Teil des Rheinlandes wird dabei nicht erfaßt.

Ich bin gern bereit, außerdienstlich die im hiesigen Archiv beruhenden Register durchzusehen; die Kosten würden sich allerdings auf DM 80,-- bis DM 100,-- belaufen. Sollten Sie damit einverstanden sein, so schreiben Sie mir bitte an meine Privatadresse in 504 Brühl, Luisenstr. Nr.7.

Mit freundlichen Grüßen

Bezug Ihr Schreiben vom 24.6.1978

Sehr geehrter Herr Blauer!

Ihr an das Standesamt Bonn gerichtetes Schreiben wurde dem hiesigen Archiv zur Bearbeitung übergeben.

Personalmangel gestattet es nicht, über eine normale Forschungshilfe hinausgehende Ermittlungen für Dritte durchzuführen. Weitgehende Nachforschungen, wie sie in Ihrem Falle notwendig sind, sind nur auf privater Basis möglich.

Ich kann Ihnen heute lediglich mitteilen, daß Namensträger Gatzweiler bzw. Gutzweiler vereinzelt in den standesamtlichen Registern von Bonn, Köln und Düsseldorf nachweisbar sind; es fehlt aber bis jetzt jeder Hinweis auf den von Ihnen genannten Johann Pius Gutzweiler und dessen Schwester Maria. Ich bedauere sehr, Ihnen einen günstigeren Bescheid heute nicht geben zu können.

Mit freundlichen Grüßen

Sehr geehrter Herr Blauer !

Ihr oben genanntes Schreiben ist vom Standesamt der

Soweit wir es bisher feststellen konnten, werden wir Ihnen
in dieser Angelegenheit wahrscheinlich nicht weiterhelfen
können.

Einen Ort D r e i c h a u s s e n haben wir bisher
nicht ermitteln können.

Wir vermuten, dass evtl. eine Verwechslung mit der Gemeinde

Wir haben Ihre Anfrage an das Pfarramt DDR - 752 P e i t z ,

Wir haben dies getan, obwohl die Kirchenbücher von Drach-

geholfen werden können, erhalten Sie von dort weitere Nach-

REF: CIGENE File NO: D/030,179,031.

DATE: Feb. 21, 1979

Dear Sir,

This refers to your enquiry about your personal genealogical research programme, which we have registered under above CIGENE File Number (CFNO).

The information on your family tree we got from you so far may be commented as follows:

Gutzweiler (confer CIGENE Data sheet o1):

The data will not suffice to get us started; we should at least have one place of residence in Europe.

However, with this particular name, we might just be lucky, as names like "Gutzweiler" are often related to or connected with certain regions in the Rhineland which we may come across.

Musick (confer CIGENE Data sheet o2):

We regret to say that the information is very fragmentary. Place of residence in Germany will be a great help, even if only a county can be named.

Gullick (confer CIGENE Data sheet o3):

By way of experience, with these data we are sufficiently furnished to get started. We do point out though, that research in East Bloc Countries -like Prussia, now in GDR- can be very difficult and time consuming for bureaucratic reasons.

.../2

CFNO: D/030,179,031.

DATE: Feb. 21, 1979

Generally speaking, we appreciate any details to add to the information on hand (please, consult below Data Forms).

Enclosed, please, find CIGENE Information on Research Procedures and Rates, and furthermore CIGENE Data Forms with your data already filled in, which we ask you to check for correctness. The Data Forms have been issued in duplicate, one copy of each we should like you to return to us corrected and/or completed for our files to help investigations.

Please, make use of the blanks for further information.

Pre-investigation (P/I) will be conducted in accordance with the terms stated in the information leaflet.

P/I fees will be charged for each ancestral line, i.e. US-\$ 180.00 each for the Gutzweiler-line, the Musick-line, and the Gullick-line.

P/I will take about four to eight weeks, on an average, provided the information on hand is sufficient.

Yours faithfully,

Dear James. Blauer:

I received your letter regarding family genealogy. My grandfather came from a town near Bern (I think it was called Tuhn) Switzerland in 1862. When my Aunt passed away a few years ago, I received several Bibles - one with birth dates going back to 1812.

My grandfather settled in San Jose. I am 53 years old, so if you are my junior by twenty years, we may indeed be related.

The next time you are planning a trip up this way, phone 563-8745. I will be happy to give you copies of any of the information I have.

Dear Mr. Blauer:

Your letter to the Genealogical Department of The Church of Jesus Christ of Latter-day Saints has been referred to my office for reply. Deseret Book is not contemplating expanding into any areas in California other than where our present retail stores are located. To open a specialty store of genealogical materials only would be a very poor investment. I don't know of any business that handles genealogical supplies alone that are other than a side line.

Deseret Book is the publishing arm of the LDS Church. We have opened numerous dealerships throughout California where our materials can be obtained. One located in Costa Mesa is Mr. Blaine Stratton. His address is 2060 Mandarin, Costa Mesa, California 92626. He should be able to order most genealogy supplies for you. Also you should be aware that any of the LDS Wards can purchase through the Central Purchasing organization of the Church any genealogy supplies desired. To locate a ward close to you simply look in the yellow pages under churches for The Church of Jesus Christ of Latter-day Saints. Also we are having sent to you under separate cover a catalog of genealogical materials available through our main retail store located in Salt Lake City. If you desire you can order the materials directly from them.

Mr. James F. Blauer

Dear James:

I was delighted to receive your letter. I thought that every Blauer in the world was related to us, and they probably are. However, I don't know too much about our lineage.

Both my mother and father were born in the Austrian Empire. They came from a section of Austria which, at this time, is now part of Poland. They came from a small village near the city of Lemburg. I don't know more than that. However, I do have cousins on the West Coast, two (2) of whom were born in the "Old Country". They both live in Portland, Oregon. One is a prominent accountant whose name is Henry Blauer and the other is a manufacturer of umbrellas (perhaps you have seen the Shed Rain Umbrella in your local stores). The umbrella manufacturer's name is Sol Blauer. There is another cousin by the name of Dr. Aaron Blauer, and his oldestbrother whose name is Myer Blauer--all living in Portland, Oregon. Since they are older and some were born in the Old Country, they may be able to tell you more about their lineage.

Additionally, in the City of Montreal and the suburbs, there is a large Blauer enclave--all of them uncles and cousins. The fact of the matter is that I have an uncle who lives in Cote Ste. Luc (a Montreal suburb) who is now approaching his 98th birthday. He, of course, was born in Austria and undoubtedly could fill you in with a great deal of the details regarding his ancestry. He has a younger brother in Cote Ste Luc who is only 76 years old and might be able to fill you in as well. Being somewhat younger, his memory is probably more clear.

I recently came across a family in Iowa by the name of Blauer. I believe that they were from Switzerland, originally, and that they were of the Protestant faith. I mention this because, believe it or not, all of our family are of the Jewish faith. Now, somewhere there has been a "mutation" or a conversion. My guess is that some of the Jewish Blauer's decided to convert to Protestantism.

Mr. James F. Blauer
Newport Beach, California

Page 2

I say this because you rarely have Protestants conferring to Judaism. Particularly back in those days. When I mentioned this to the family in Iowa, communications stopped immediately. I guess they must have written the Jewish Blauer's off as a "lost cause". Or, perhaps they couldn't cope with the idea that perhaps, in their deep and distant past, their forebearers were of the Jewish faith.

I rather suspect that, since you are from the Swiss branch, you must be of the Protestant faith as well. And I hope that the possibility of a Jewish ancestry does not offend you.

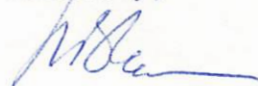

Incidentally, I might mention that my nephew Michael Blauer lives in Westwood which is a suburb of Los Angeles and not very far from Newport Beach. He is a fine young man of 27 years of age. He is a graduate of the University of Massachusetts and the Fashion Institute of Technology in New York City. He is a most accomplished athlete--and an outstanding tennis player. If you care to call him, his phone number is 213-474-4946.

If you want to delve into this branch of the family (and I assume we are a branch of the family), I will be very happy to send you the complete address of my uncles in Montreal who may be able to take our family back a couple of generations to see if there is any sort of linkup.

Incidentally, in a travel section of the local newspaper, I saw a write up of Austria and reference to a train called the "Blauer Enztrain". This apparently is a train that runs quite regularly in Austria and is well known. I deduce from the article that the name Blauer is somehow or other related to a small blue flower which grows wild in the mountains.

At any rate, this is all that I have to offer. There are Blauers in Montreal, Blauers in Portland, Blauers in Washington D. C., amongst others. If you really want to get into it, I will try to help all I can.

Sincerely,

Maurice Blauer

Dear Jim,

First of all I am not a Mr. I am just listed that way in the phone book so people will not call me unless they know who it is. Does that make sense? I am in the midst of developing a proposal and so my thoughts are muddled.

I appreciate your curiosity about the Blauer name as I'm sure all people with uncommon names share the same intrigue.

I am the second of four daughters of Henry and Genel Blauer. My father is one of three children of Joseph and Bertha Blauer, who are descendants of Rachel and Aaron from Royal Galacia, which I think is somewhere in Austria now. Dad was born 1920 in Tarnow, Poland and immigrated here with his mother and siblings shortly thereafter. His father's real last name was Sporn, and his mother's Blauer, but due to circumstances when the entire family arrived in NYC their last name became Blauer.

The bulk of our relatives reside in the East coast, Boston, M.D., NYC, Providence, and largely in Montreal. We are all Jewish and I think there are none from Switzerland.

We have a huge family as was evident from the first family reunion which took place this summer here made possible by my wedding, it was a good excuse. There were four generations, and over fifty present, and at least sixty relatives didn't come. There is also a first cousin of mine who lives in London and has two children, Winfield, is her last name.

The relatives are mostly Blauers, though there are some Sporns too. I would assume we are not related, but then one never can tell.

If you are ever in Portland don't hesitate to call.

Sincerely,

Shoshana Blauer

I did not take my husband's last name,
it is Kolinsky.

I received your letter from Willow

I would suggest that you
submit a query to the Cape Cod

Mrs. Jane Mercier, R.F.D. #1,

The Society is very active
and publishes a newsletter four

come out around Christmas,
I think. The charge for
non-members is a dollar or two.

Also, if you have not yet heard,
I suggest that you also submit
a query to the genealogy column

Dear Mr. Blauer:

I am writing in response to your letter to Richard Rosen, postmarked 14 September.

You should know that the Real Paper is now defunct; when it folded, the Phoenix purchased certain of its assets, and along with the office furniture came a quantity of the Realp's mail. Which explains how your letter wound up on my desk.

There is no editorial department here which can be of real help to you; I don't know if you're familiar with the paper, but it's a weekly covering politics, arts and entertainment. I hope you've thought to write to the Boston Globe, which is this area's mega-daily and might be of some assistance.

I certainly would encourage you to get in touch with our classifieds office (367 Newbury St., Boston 02115). We do have a large readership, and a classified is the most efficient way of getting your request across to them.

Good luck.

Dear Mr. Blauer,

Your letter requesting a search in New Haven newspapers for 12 obituaries has come to me for reply.

Our fee for such a search is \$12.00 per hour. We estimate that your request will require four hours which will cost you \$48.00 in advance.

We normally check a five day span for obituaries. To do more than that, particularly over a two month spread, would take many hours more.

As you are probably aware, obituaries were not all that common before the early 20th century, so the likelihood of finding anything diminishes the further back one searches.

Should you decide to proceed, please let me know and include your pre-payment. I have enclosed our hours and rules should you wish to come to the library yourself. You will also need to bring identification with you.

Dear Mr Blauer

We are grateful for your enquiry and should be delighted to undertake research for you. Our booklet is enclosed and this will probably give you most of the background information you need to know about our services. As you will see from this we are able to carry out genealogical research not only in Britain and Ireland, but in North America, Europe, and elsewhere in the world. This gives us special capabilities in research involving emigration, as we are able to conduct co-ordinated research in both the country of origin and the country of destination.

We do recommend we work on one family line at a time for our standard fee mentioned below. We should be pleased to research whichever of your distinguished lines you wish, but if we are to proceed, which I hope will be the case, please send all the relevant information you have on the family and please indicate the sources from which you derived the information.

We always conduct our research within a limited budget fee (which is never exceeded without the permission of our client). Our usual practice is to ask for this fee in advance to allow us to set in motion the research on your behalf. In order to maintain our high standards we have set a budget of \$490 for normal cases which can be paid either by cheque or credit card. If you have any queries please do not hesitate to write to me for clarification.

Exceptional clients, whose wishes may well exceed those normally sought, are invited to write to me for a discussion of their particular requirements, marking the envelope "For Personal Attention".

We look forward to hearing from you, and assure you that anything which we undertake on your behalf will be of the quality which is traditional for Debreth.

Yours sincerely

YOUR ANCESTRY AND DEBRETT SINCE 1769

“ Those who do not treasure up the memory of their ancestors do not deserve to be remembered by posterity. ”

It is more than 200 years since John Debrett began to chronicle the Royalty and Aristocracy of England and Wales, Scotland and Ireland. Nowadays we at Debrett apply the same skills to researching all families, whatever their origins, in the belief that, properly studied, genealogy is the history of ordinary people.

WHAT WE NEED TO START RESEARCH

The policy of professional genealogists is to start from a basis of known facts, and to work backwards into the unknown. Hence to begin research we must have as much information about your family as you can provide. The key facts are names, dates, places, relationships, occupations and religion. These need only be approximate, but please distinguish between family tradition and established facts.

Some clients come to us knowing only their own date and place of birth (and this is usually sufficient to enable us to make good progress); others have already established 10 generations. It is important in cases where research has already been carried out, to provide full details of all searches (even when results were negative), so that we do not waste our time *and your money* in establishing facts already known.

We also need to know which line of your family interests you most. Unless you wish otherwise, we will give priority to your 'surname' line, but we can of course research any line or lines.

DEBRETT'S WORLD-WIDE NETWORK

We at Debrett engage the services of experienced and dedicated researchers at the main archive centres, particularly in Britain, Ireland, North America and Australasia. These researchers are specialists in their own field, and can find their way straight to the most pertinent records, but work under the supervision of an expert genealogist. Research usually involves work being carried out in several different places; frequently in more than one continent. From our headquarters in Winchester, and our office in North America, we are able to co-ordinate the research and analyse the results to give you a handsome bound report.

SPEED OF PRODUCING RESULTS

Ancestry research is a time-consuming business, and thorough research cannot be hurried unduly. The time required for a particular search will vary considerably, but generally clients should expect research to take months rather than weeks. We are happy, however, to produce interim reports. Urgent cases will be dealt with by special arrangement; we are well-used to the needs of clients who require evidence of a British-born grandparent for British nationality purposes.

ENTITLEMENT TO A COAT OF ARMS

We are happy to advise clients concerning the procedures necessary to prove the right to a coat of arms, and to liaise with the relevant heraldic authority in an application for a grant of arms. These are complicated areas, usually requiring genealogical research as a preliminary, in order to ascertain whether there is a descent, in the male line, from a person to whom a coat of arms has been granted.

COSTS AND BUDGETING

The fee we charge for research is assessed on the basis of time plus expenses, and in common with most genealogists, we ask for payment in advance. In this way we are able to keep expenditure on research under tight control. We appreciate that our clients do not want open-ended commitments or large unexpected bills.

Each research project is different, and we can never know in advance precisely what we are going to discover or how much work will be involved. Once we receive your payment, we will carry out the research and when the funds placed at our disposal are exhausted we will send you our detailed report, together with our opinions as to the prospects of discovering more. Then, if and when you decide that you would like to have more research carried out (and this, of course, *entirely at your own choice* without any prior commitment), we shall always be pleased to do so. We can then suggest another budget and do more research for you.

At no time will we incur charges against your account in excess of what you have personally authorised in advance.

PAYMENT

Our bankers are pleased to accept your personal cheque in your national currency, or you may pay by credit card account. In the latter case we ask you to let us have your card number, its expiry date and written authority to charge the sum agreed.
