How do I view graphic/spreadsheet/word processing files in an archive?

Quick View, the optional Windows file viewing utility, makes it easy to view many popular graphics, spreadsheet, and word processing files. By default, if Quick View is installed on your system, WinZip® will use it to view files that are not associated with another application. If Quick View is not installed on your system, you can install it by reviewing the [Quick View](#) topic. To use Quick View with WinZip, choose **Configuration** from WinZip's **Options** menu, click the **Program Locations** tab, type "quikview" in the **Default association** field (don't type the quotes), then click **OK**.
