April 23, 1845; son of Samuel D. and Polly S. (Smith) Alfred. Educated in the public schools. In 1866 married Susan A. Bradley of Fairfield; they have four children, Anna E., Samuel D., Nathan B., and Chauncey A. From 1866-7 engaged with his father in mercantile business in Fairfax; purchased the business and continued to 1897; since 1898 has been deputy sheriff, St. Albans. Is a Republican; represented Fairfax in the Legislature 1896. In religious belief a Baptist." This would suggest that the initial P. shown on page 32 in AAFA's published census is incorrect.

She goes on with some more on Vermont Vital Records: From a birth record: Samuel D. Alford, son of John R. Alfred (Mildred thinks the initial should be "B") and Susan Bradley was born Dec 1871. Mother was born Fairfield and resident of Fairfax. Father was born Fairfax, a merchant. (Note that we have an ALFORD here son of an ALFRED).

From a death record: Chauncey Chapin Alford, born Fairfax, VT, a retired married person, died 23 Sept. 1924 in Fairfax, VT at age 75 years, 5 months, 6 days. He was the son of Samuel D. Alford, born Massachusetts and Polly Smith born Berkshire, VT. (In all other records Samuel was ALFRED.)

Pg 35. "Information concerning the ancestry of Alden Alford is enclosed." On one of her typed information sheets:

"Alden Alford was the son of Arnold ALFORD and Lois BEEBE. His paternal grandparents were Eliphalet ALFORD and Dorcas ELY. The marriage of Eliphalet and Dorcas and the birth of their son Arnold are recorded at Harwinton, CT. See the Harwinton vital records from the Barbour Collection which I sent with my last letter. Alford information from the Ely genealogy is enclosed. (Not included in this feedback but added to the AAFA genealogy file.) "There are death records for Alden ALFORD and his wife in the Vermont Vital Records:"

Alden E. Alford, a widowed farmer of Castleton, born Granville, NY, died 10 December 1913 of senile debility at age 93 years 3 months 10 days. Emeline (Beals) ALFORD housewife born Middletown (now Middletown Springs) VT, died suddenly 7 Jan 1912 of cerebral hemorrhage in Castleton. Daughter of Daniel BEALS born Litchfield, CT and Sally Keyes born Middletown. (I may have copied this incorrectly. The

history of Poultney, VT identifies her father as David Beals. See enclosure. MM) Alden and Emeline Alford are buried in the Hillside Cemetery at Castleton, VT: ALFORD, Alden E., Aug 30, 1820 - Dec. 10, 1913. Emaline Beals, wife, Nov. 20, 1825 - Jan. 7, 1912.

Pg 38. Mildred placed an asterisk on Samuel, the last person listed, and added these comments:

Samuel ALFORD was my great, great, great grandfather. He was the son of Alexander ALFORD and Elizabeth LEASE. Alford material from the North Carolina State Library which you sent to me shows him born 13 Sept. 1787. His gravestone in the Plain Cemetery at Weathersfield, Vermont has "1788-1879". He married Clarissa WATKINS at Woodstock, Vermont on 31 July 1814. Her gravestone in the Plain Cemetery has "1786-1843". Samuel lived at Weathersfield, Vermont in the home of his son Samuel, Jr. in 1850, 1860, and 1870. He died 21 Jan. 1879 at Cavendish, Vermont. His death certificate lists his birthplace as Colchester with the state not identified. His parents eventually settled at Colchester, Vermont, but I think it must have been long after Samuel was born. The material from the North Carolina State Library states that Samuel probably was born at Vergennes, Vermont. I think that would be the right area at least. I think his father must have been the Alexander OLFORD who was at Charlotte, Vermont in 1790 and had three sons under age 16 at that time. Charlotte is not far north of Vergennes.

I have information concerning the four children of Samuel and for some of his siblings. I need to get in touch with Phil Cartmille because I'm convinced that he descends from Samuel's brother James. I'll have to get back to you on this.

## AAFA Census Data

### "Alfords" in the 1850 UTAH Census

Alicia Roundy Houston AAFA #0001 & the AAFA Census Team

This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The every name extraction was performed using the microfilm as a source - then verified for completeness and accuracy.

The following data is not intended to reflect either the "true" facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.

The categories on each line appear in the following order: name, sex, age in years or months (two columns), color (assumed to be white unless shown otherwise), birth place, \*MSR, occupation, and property. \* There may be any one of three entries:

M = married within the year

S = attended school within the year

R = can't read or write (or just W if can read but not write)

Birthplace is shown with the approved postal abbreviations for states in the U.S. Double question mark (??) signifies unknown. Foreign places, if applicable, were abbreviated as follows: EN = England, IT = Indian Territory, MX = Mexico, ST = Scotland.

The order of the information in the two line family header is as follows: the name of the political subdivision or enumeration district and county. On the 2nd line: census page number, census dwelling or house number, census family number and the enumeration date.

According to Thorndale and Dollarhide's Map Guide (for census), Utah became a territory in September 1850. The census was actually taken in April and May of 1851, with census day being 1 April 1851. Nevada, Utah and parts of Colorado and Wyoming made up Utah Territory. Utah was originally called "Deseret" by the Mormon pioneer settlers.

The association acknowledges the efforts of Dr. R.M. "Dick" Alford, Doris Alford Vetri, Thomas Donnelly, Bobbie Alford, Lynn Shelley, Gilbert K. Alford, Jr., and Peggy Alford Schuster in the preparation of this report.

## "Alfords" in the 1850 Michigan Census

Prepared by Alicia Houston and the Census Project Team

This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The every name extraction was performed using the microfilm as a source - then verified for completeness and accuracy.

The following data is not intended to reflect either the "true" facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.

The categories on each line appear in the following order: name, sex, age in years or months (two columns), color (assumed to be white unless shown otherwise), birth place, \*MSR, occupation, and property.

\* There may be any one of three entries:

M = married within the year

S = attended school within the year

R = can't read or write (or just W if can read but not write)

Birthplace is shown with the approved postal abbreviations for states in the U.S. Double question mark (??) signifies unknown. Foreign places, if applicable, were abbreviated as follows: EN = England, CN = Canada, GM = Germany, IR = Ireland, etc.

The order of the information in the two line family header is as follows: the name of the political subdivision or enumeration district and county. On the 2nd line: census page number, census dwelling or house number, census family number and the enumeration date.

The association acknowledges the efforts of JoLynn Alford Long, Thomas Donnelly, Gilbert K. Alford, Jr., and Peggy Alford Schuster in the preparation of this report.

**"Alfords" in the 1850 New York Census**

Prepared by Alicia Houston and the Census Project Team

This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The every name extraction was performed using the microfilm as a source - then verified for completeness and accuracy.

The following data is not intended to reflect either the "true" facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.

The categories on each line appear in the following order: name, sex, age in years or months (two columns), color (assumed to be white unless shown otherwise), birth place, \*MSR, occupation, and property.

\* There may be any one of three entries:

M = married within the year; S = attended school within the year

R = can't read or write (or just W if can read but not write)

Birthplace is shown with the approved postal abbreviations for states in the U.S. Double question mark (??) signifies unknown. Foreign places, if applicable, were abbreviated as follows: EN = England, CN = Canada, GM = Germany, IR = Ireland, etc.

The order of the information in the two line family header is as follows: the name of the political subdivision or enumeration district and county. On the 2nd line: census page number, census dwelling or house number, census family number and the enumeration date.

The association acknowledges the efforts of Robert S. Barrows, Elmer K. Miller, Margaret Windham, Deena Cross, Thomas Donnelly, Gilbert K. Alford, Jr., Doris Alford Vetri, and Peggy Alford Schuster in the preparation of this report.
