

601 South Baywood Avenue  
 San Jose, California 95128  
 April 15, 1987

Dear Fellow Carrier Researcher:

Using information from every source available to me, including George May's book on Thomas and Martha (Allen) Carrier, the information circulated through *Carrier Clearinghouse* and correspondence with others as well as my own research, I have constructed an skeletal outline of all the family connections yet known to me of the descendants of Thomas and Martha (Allen) Carrier. No information about any other family name or any other family line is included, and "other" surnames joining this family are carried one additional generation only.

The computer-generated outline - titled *An Interim Report* - is now more than 90 pages this size and the type used in this letter, plus 25 4-column index pages holding more than 15,250 entries! Every name appearing in the outline is included in the index. The format used is the "descendancy chart" showing generations and position within the family, which you'll recall I favored in *Clearinghouse* issues. This lends itself admirably to the computer program I use, since new findings may be easily inserted in the appropriate spots without disturbing (or needing to re-type) what has already been outlined. It is to be hoped anyone seeing this outline who has additional findings will want me to integrate their new information for the use of others in the future.

As you might guess from the success of our united efforts in *Clearinghouse* issues, the outline contains information on many Carrier people and connections in addition to those shown in George May's book -- and you'll recall how his printing included much in addition to what Mrs. Carl W. Carrier had located to include in her earlier book. Obviously it is to be hoped that someone will soon undertake to actually write a book using this outline as a starting point. But George May hasn't the time to do it just now, and as far as I know, no one else is currently undertaking to publish this information in a more scholarly and complete form.

Therefore, since we believe you and others have an interest in this information, we have decided to make printouts available to those who want them, at a cost of \$15.00 delivered by U.P.S. These computer printouts are made one at a time (at less cost - though slower rate - than offset printing) so any new information received at any time will be included in the outline and added to the index. Fiber-board "data binders" will be used for covers, but pages will also be stapled together for durability.

This announcement is being sent to the last known address as shown below for all those people in search for the family names of Carrier or Currier who participated in the *Carrier Clearinghouse* project, and those from whom I've heard since its demise. It would seem those searching for other surnames probably have little interest in this "Interim Report" since it deals only with one CARRIER family line.

If you have information you want to have added to the outline, please do send it along. And if you would like to have a copy of this *Interim Report*, please send your check drawn to me for \$15.00.

I'll look forward to hearing from you.

Cordially,

*Nelynn M. Carrier*  
 Mrs. F. H. Carrier
