Poem etc composed by Ida Julia Underwood Stafford in 1922.

" Twenty seven times again we meet,
Our friends and relatives to greet,
And picnic day comes once a year
So lay away all cares and fear.

DOES NOT CIRCULATE

In 1812 grandfather came to Freetown NY , his descendants' now are scattered around ,In Cortland County the most of them. Some live away where I can't tell, The most of these hills were forests then.They built a log house and then Bogen to chop and dig, and clear the land and buy more acres as fast as they can. Grandfather owned 1,000 acres, he built a red house for his own.Seventeen children to them were born-- all are gone--not one remains. Eleven married and children came. So grandfathers children have always gained.There are several hundreds I think today, But some are living far away. I am sure we have gained in the year jus passèd. With two hundred and many less. Only two deaths now, isn't that great? Since last we met to celebrate., I often think if grandfather could come back to earth ; wouldn't it be fun. He would think it was the same old place. With all the wonderful things that we now face."ar in the old days that are passed and gone. On horses backs they jiggèd along--but now the cars are so thick and fast, One can hardly tell how fast they pass. The tallow candle they lit at night--For that was all they had for a light--But now touch a button and the light comes on. What wonderful things electricity has done. So we are living fast today--but probably no happier now than were they. For so many new things now to try--we we most forget we have to die. They had some things money wont buy--Their love for God and a Home on High. And I hope we will all be there To praise His Name and His glories share. As the multitudes grow as the flowers and weeds. That withers away to let others succeed. So the multitudes come, even those we behold. So repeat every tale, that has often been told. We are the same our forefathers have been--we see the same sights our forefathers have seen. The thoughts we are thinking--our forefathers would think. From the death we are shrinking, They too would shrink To the Life we are clinging--they too would cling. But it speedeth from Earth like a bird on the wing.-----

" Our first ancestor came over from England in 1637--Joseph Underwood --in 1650 a son Joseph was born to him and in 1685 a son was born to Joseph the 2d. named Jonathan--Jonathan s son Nehemiah was born 1721 and Elias son of Jonathan in 1743 and in 1780 Elias' son Vander Underwood was born at Woodstock Ct.

31. Rosilla Gilbert dau of Warren Gilbert married David Oscar Sybrant _____ born 3-28-1831. Died. They went to Nebraska in March 1887 and took a home-
stead--built a sod house where they lived for several years --Brother Fred and Ida came in July 1887 and the step-mother in October--when they arrived they had no fuel--there were no trees--and hay and prairie grass and pressed tumble weeds were used for fuel. I have been in Nebraska in the winter and know the intense cold those settlers endured. These settlers burned their fuel in a wash boiler on top of the stove. They had an ox team and they broke the monotony of the long winter evenings by forming a Literary society and drove 12 miles in their ox wagon to attend these bright spots of the winter--I know that the grandchildren and great grandchildren make the 12 miles much quicker now but maybe they are not one bit happier. Sybrant Postoffice was named after Oscar and he was the Postmaster for 12 years. They had:

The Ammons are of that group of pioneer people who went to the prairie states and made good in spite of obstacles that would seem terrible to many folks today who have never known what real pioneer hardships are. I spent some time in these western states and have learned first hand many of the trials these hardy folks went through to open up a new land. And so we are all proud to list people who have persevered and struggled through obstacles. In my trip to Nebraska while making our Gage history I saw the state of Nebraska--they planted trees in the 1860s and now must do the job over after so much drought--a constant scrap with the elements.

This record is placed next to that of Russell and Rosilla as I have much data to prove that they are 1st. cousins. 233. Anna Matteson married 8-22-1893 Furdette Gallup son of
Orron P. Anna Matteson Gallup has been another fine
booster of the whole Matteson genealogy and has done
all in her power to help encourage me in this work--
she realizes the task of getting the early records and
like myself does not believe we should have a genealogy
so that we can "Look backward" but to know of the tasks
these forefathers went through to help make America
a better place for us to live in and that we can review
this history for sentimental reasons. I therefore join
with all of you folks in praising people like Anna Gallup
and many others of this family--who go into a new country
and build a good home--raise a fine family and then take
time out from these many duties in order to boost the
sentimental tasks ---It is the sentimental things that
smoothover the rough side of life--that makes this old
world a finer place in which to live--there is also
another sentimental phase to think of--I for one do
appreciate the fact that I have as ancestors men and
women who fought to make America the greatest country
on earth--and that I can trace 16 lines back to Colonial
Days--today when there are so many over seas ideas afloat
we can be glad to point to this American lineage.

Poem etc composed by Ida Julia Underwood Stafford in 1922.

" Twenty seven times again we meet,
Our friends and relatives to greet,
And picnic day comes once a year
So lay away all cares and fear.

In 1812 grandfather came to Free-town NY, his descendants now are scattered around. In Cortland County the most of them. Some live away where I can't tell, The most of these hills were forests then. They built a log house and then began to chop and dig, and clear the land and buy more acres as fast as they can. Grandfather owned 1,000 acres, he built a red house for his own. Seventeen children to them were born-- all are gone--not one remains. Eleven married and children came. So grandfathers children have always gained. There are several hundreds I think today, But some are living far away. I am sure we have gained in the year jus passed. With two hundred and many less. Only two deaths now, isn't that great? Since last we met to celebrate., I often think if grandfather could come back to earth; wouldn't it be fun. He would think it was the same old place. With all the wonderful things that we now face. Far in the old days that are passed and gone. On horses backs they jiggled along--but now the cars are so thick and fast, One can hardly tell how fast they pass. The tallow candle they lit at night--For that was all they had for a light--But now touch a button and the light comes on. What wonderful things electricity has done. So we are living fast today--but probably no happier now than were they. For so many new things now to try--we we most forget we have to die. They had some things money wont buy--Their love for God and a Home on High. And I hope we will all be there To praise His Name and His glories share. As the multitudes grow as the flowers and weeds. That withers away to let others succeed. So the multitudes come, even those we behold. So repeat every tale, that has often been told. We are the same our forefathers have been--we see the same sights our forefathers have seen. The thoughts we are thinking--our forefathers would think. From the death we are shrinking, They too would shrink to the Life we are clinging--they too would cling. But it speedeth from Earth like a bird on the wing. -----

Our first ancestor came over from England in 1637--Joseph Underwood --in 1650 a son Joseph was born to him and in 1685 a son was born to Joseph the 2d. named Jonathan--Jonathan's son Benjamin was born 1721 and Elias son of Jonathan in 1748 and in 1780 Elias' son Vander Underwood was born at Woodstock Ct.
