When CFG&HS member Tom Keeseey attended a Fergus family reunion in Slippery Rock, Pennsylvania, this past July 4th, his cousin presented him with a diary written in 1875 by his great great aunt, Ezemiah MAUGHLIN. The diary gives a daily account of events in the small farming community of Airville, York County, in southern Pennsylvania 116 years ago. From other sources, Tom found photographs of many of the people mentioned in the diary and an 1876 Atlas of York County that shows the location of Ezemiah's house and her neighbors. A visit to Airville showed that the house is still standing and located Ezemiah's grave marker.

Tom transcribed the diary onto a computer disc and is preparing to reproduce it for his family members and the Historical Society of York County library. The first thirty one days of the diary are shown below.

THE DIARY OF EZEMIAH MAUGHLIN 1875

Ezemiah was born in 1835, so she was 40 years old when she wrote her 1875 diary. She never married. She lived with her father, John Maughlin, and unmarried sister, Elizabeth, whom she calls Lizzie throughout the diary. They lived in Airville, Pennsylvania, a town of about 18 houses, a store, church, and post office in Lower Chanceford Township, York County, about 15 miles north of the Maryland line and 20 miles south of the city of York, the county seat.

The diary was handed down from Lula ANDERSON, my mother's sister, to her daughter, Lois ANDERSON, my first cousin. Lois offered it to me because my mother, Ezemiah Elizabeth (Grove) KEESEY was named for Ezemiah MAUGHLIN.

THE PUZZLE OF TANNEQUIL FABER/LeFEVRE

The Secret Diary of William Byrd of Westover [1709-1712]¹ has an entry on April 17, 1711, when Byrd was in Williamsburg, reporting that 'I had several gentlemen come to see me and among the rest Mr. LeFebre a Frenchman of great learning.' This is certainly not very significant. Anyone reading Mr. Byrd's diary would find that he started off almost every morning by reading a little Greek or Hebrew, having a breakfast of boiled milk, after which gentlemen would call on him. However, if you are researching the LeFevre name any little bit helps.

On January 28, 1712², Mr. Byrd read a chapter in Hebrew, some Greek in Homer, followed by prayers, and chocolate for breakfast, and then, after listening to a long speech by Gov. Spotswood, went to the coffee house for a meeting with the governors of the College [of Wm & Mary]. One item of concern was the behavior of Tanaquil Faber who had been dismissed from his position.

One finds that among the clergy licensed by the Bishop of London for service in the colonies on June 10, 1709,³ was Tanaquille Faber. Apparently the good bishop also wrote a letter to the colonies recommending Mr. Le Fevre so highly that Gov. Spotswood persuaded the college to appoint him as mathematics professor 'with the Sallary of eighty pounds per annum'.⁴

And why was he dismissed? He was months late in reaching Virginia and when he arrived he had with him a woman described as an 'idel hussy' with whom he spent so much time drinking that he totally neglected his duties at the college. In deference to the bishop, Faber's salary was paid for the balance of the year.

Fortunately for Mr. Faber/LeFevre, the governor took an interest in his case and arranged return passage for the lady. After her departure, Tannequil mended his ways and was able to find employment as a tutor for the son of a local 'gentleman'.

Meantime the Bishop died and we have a petition⁵ of Tanaguy LeFevre/Tanaquillus Faber to the Society [?for the Propagation of the Faith] on Aug. 17, 1713, complaining about his distressed condition. In his view he was sent to Virginia to be headmaster
