- SCOTLAND -

The following records are the result of my research made in Salt Lake City, Utah, in the Genealogical Library of the Church of Latter Day Saints. During July 1973 I spent one week at this library in search of our Patterson family who were said to have come from the banks of the Clyde River. These records were all copied from microfilmed copies of the various Parish Registers of Scotland. Some of the records it was found to be impossible to read and there can be no doubt but what some were missed in my trying to read them. I did not copy completely all of the records and usually stopped about 1740 by which time our family had already been settled in America for some years.
