Although the family lived in Plumas County at the time, my father, Alvin Charles Knuthson, was born 19 May 1918 in Oroville, Butte County,³⁰ while his mother was visiting her sister, Hattie McElroy Mitchell. The family moved to Butte County when grandpa sold the ranch in Sierra County in the mid-1920s.

Alvin, my father and the eldest of two sons, grew up in Butte County. Shortly after graduating from high school in 1936, he began working for the U.S. Forest Service. He joined the Army early in 1941, serving in the Pacific during World War II. In early 1944, while recovering from malaria at Letterman Army Hospital in San Francisco, dad met my mother, Eileen Marie O'Hallisy. Mother, a native of Cleveland, Ohio, was born 15 January 1922.³¹ They were married in Reno, Nevada on 24 November 1944³² and soon afterward moved to the Butte County city of Chico, where dad began employment as a taxi driver. I was born in Chico on 21 June 1946.³³ I am the eldest of four children. All four of us grew up in Butte County. Mom died on 28 August 1979 at the age of 57 and is buried in Magalia Cemetery in Butte County.³⁴ Dad died on 28 April 2002 and is buried in Magalia Cemetery next to mom.³⁵

Most of us had ancestors who left their native countries and braved the unknown for a chance at a new life. I find it amazing that so many young people, regardless of the hardships in their native land, would leave family, friends, and everything they knew to move to a distant land. Although some immigrants did return to their native lands for a visit, and some returned to stay, many must have known from when they decided to leave that they would very likely never again see their loved ones and friends.

The sacrifice and hard work of our immigrant ancestors was remarkable. Not only did Jacob and Regina establish a home in New York City, they chose to leave their city home for the far-off western mountains of California. They must have known that life would be much more difficult in this locale, yet they made the journey. It is difficult for me to imagine what it took to do this. The challenges faced by many of our earlier ancestors, and the courage by which they faced these challenges, must be acknowledged. Subsequent generations owe a debt of gratitude to these strong and determined men and women, our pioneer ancestors.

Laura Patricia "Pat" Lillard

Laura Patricia Lillard passed away quietly in her sleep in Orangevale, CA, on February 1, 2004. Pat was born June 28, 1911, in Sacramento, CA, to James Patrick and Laura Pamphillan (Storrer) Kelley. She was the third child of eight.

Her husband, Oliver Hall Lillard, her daughter, Barbara (Lillard) Johnson, brothers Thomas Bernard Kelley, James Patrick Kelley, and Robert Leonard Kelley, sisters Marion Joan Robak, Jean Frances Morehead and Evelyn Cedale Cerles predeceased Pat. Her son Robert, six grandchildren, eight great-grandchildren, one great-great grandchild, and her oldest sister, Susan Elizabeth (Kelley) Brown, survive her.

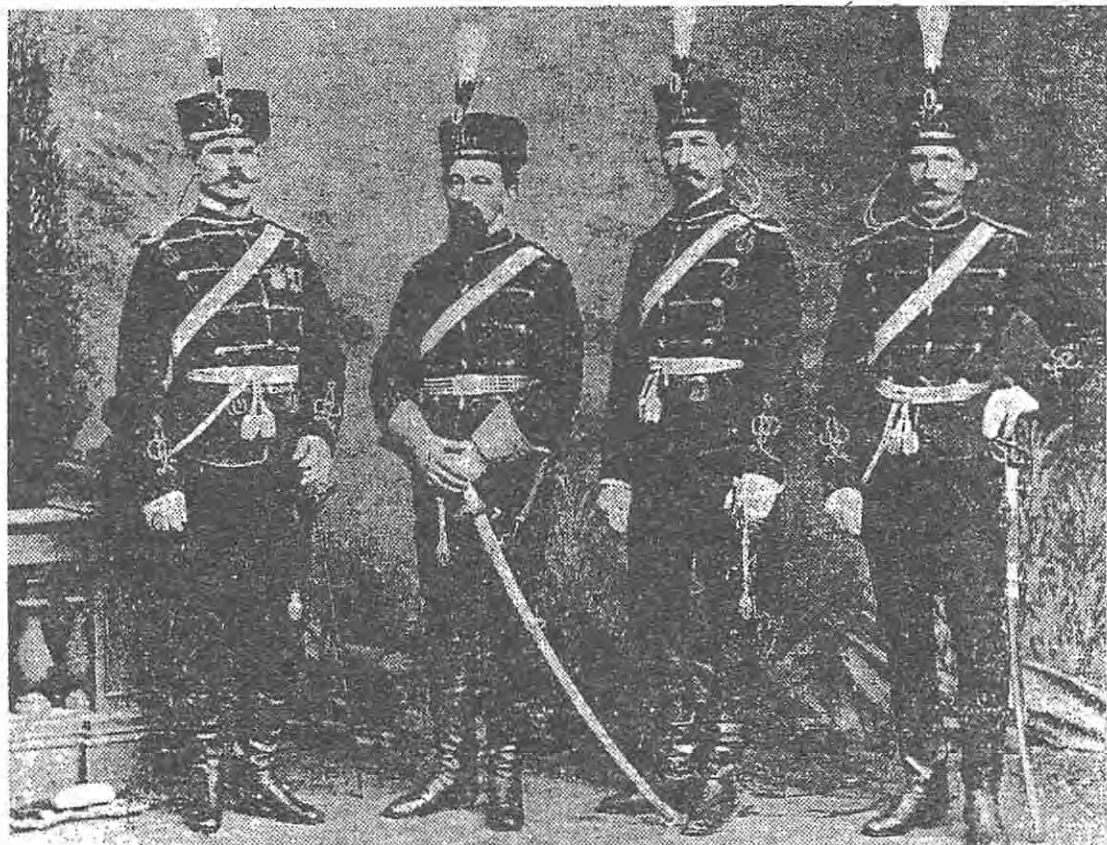

Pat's grandfather, Bernard Kelley, came to California in the 1860s. He was an engineer on the Southern Railroad. He met his wife Susan McEnerny at Clipper Gap when the train would stop for water. They were married in Sacramento, CA, at the St. Rose Cathedral in 1871.

Pat's father, James, was the first born of Bernard Kelley and Susan McEnerny. He owned a grocery store in downtown Sacramento. He served as a Supervisor.

Pat had a great love of family. She shared many stories of her growing up—especially time spent at Lake Tahoe. She enjoyed gardening and cooking. Shrimp salad, meatloaf and tomato chutney are three of the family favorites.

The Sacramento Hussars

EDITOR'S NOTE: In the last issue of the ROOT CELLAR PRESERVES, we published a list of the men of the Sacramento Hussars, one of the militia units. Recently, we came upon an article and the above picture of some of the Sacramento Hussars. This article is abstracted from an article by Michael Fellows, which appeared in the Spring 1989 issue of Interchange, a publication of the City of Sacramento Museum and History Division.

Sacramento Hussars (date unknown)

The only cavalry militia unit in the county, the Sacramento Hussars was composed primarily of native-born and ethnic Germans. The unit was modeled after the light-horsed units that were found in most European armies of the time; the Hussars uniforms and equipment were patterned after the same. Both their dark gray dolmans (short hussar-type coats) and tight riding breeches were accented with white embroidery and "clay-piped" leather designs. Red and white "brushes" topped their shortened, dyed black fur busbies or colpacks (hussar-style hats). Although not shown in this photograph, their high-topped riding boots were originally a bright yellow and red. During the four-year period between the unit's formation (1859) and its incorporation into state service (1863), all costs of these expensive uniforms were born by the members. Uniforms cost between \$50 and \$100; weapons and other equipment about the same; and a good horse (the members were known for the excellence of their horses) cost somewhat more.

The Hussars met on the first Wednesday night of every month in the armory on the first floor of the City Library. Minutes of many of the meetings, as well as the first extent

Sacramento Hussars (continued)

"Bye" Laws and Constitution (written and signed by the membership) can be found in a book in the collection of the Center for Military History in Old Town Sacramento.

The Sacramento Hussars continued to function as a member of the California National Guard until 1874. On July 10, members unanimously voted to withdraw from the National Guard and on August 21, 1874, they were mustered out of service. However, the unit continued to meet as an independent "Military Unit." Although the minute book of the Sacramento Hussars ends on October 5, 1877, other accounts indicate the unit functioned into the 1880s. A September 1883 Sacramento Union account stated: "Aside from being a military organization, the Hussars is also a benevolent institution: pays weekly benefits, care for the sick, buries the dead, etc.... This company... is something that every Sacramentan can well feel proud of."

California Militia Units - Sacramento Hussars

The Sacramento Hussars was organized 1859 in Sacramento, Sacramento County, and was disbanded 21 Aug. 1874. Its unit designation was the 4th Brigade, unattached Co. "The Sacramento Hussars were organized 1859 as an independent cavalry company composed entirely of German residents from the city of Sacramento. The Hussars were especially noticeable for their fine horses and showy trappings." The company uniforms "were designed after the Hussar regiments of Prussian soldiers." *Outline History of the California National Guard*, Vol. 2, pp. 483-485.

1.3

The Sacramento Sharpshooters was organized 7 Jun 1863 in the city and county of Sacramento and was disbanded 23 Jun 1866. Its unit designation was 4th Brigade, 4th Infantry Regiment, Co. F. "According to correspondence on file, the title 'Sharpshooters' was most appropriate, as the members of the company had previously been members of the Sacramento Rifle Club. All were 'crack' shots, noted for their ability with the rifle and proud of their records."

Filming Project at SAMCC

As genealogists, we have all taken advantage of the wide range of microfilms available to us through the Family History Library in Salt Lake City and the local Family History Center on Eastern Avenue. If you are like me, you really haven't given much thought to the process that allows those films to be at our disposal. Starting last fall, members of ROOT CELLAR have had first-hand experience with the process of filming records for inclusion in the Family History Library's collection.

The Utah Genealogical Society (UGS) has been filming records at the Sacramento Archives and Museum Collection Center (SAMCC). Last summer, ROOT CELLAR was approached by UGS to help prepare the next set of records – Sacramento County Coroner's Inquests – for filming. These documents, dating back to the 1850s, are legal size papers, which have been folded in fourths and stored in boxes. Root Cellar members have been taking each document, unfolding it, removing whatever means were used to secure pages together (everything from brads, grommets, glue and staples and sometimes combinations of two or more!) and flattening the document as best we can.

Although the actual physical work can be tedious (and often hard on the hands!!!), being able to view and sometimes read these documents is very interesting and has also been a mini history lesson. When we first started working on the document, most of the inquests dealt with drowning and horse-related accidents. Then there were a lot of train accidents (people and trains). And as the automobile became more common, so did the accidents involving people and cars and cars and trains. The "cause of death" that was one of the most unusual was "death by liquid heat." Apparently a sterno-type mixture was available as early as the late 1890s and since it contained quite a bit of alcohol, many homeless men drank it as well as used it for warmth. Sometimes death occurred, whether by accident or intentional, it was sometimes unclear. One cause of accidental death that seems to have remained constant (and still is today) is drowning in the Sacramento and American rivers.

What has surprised us all is the number of other documents we have found stored with the coroner's inquest; many of them with genealogical significance.

Included with the coroner's inquest papers of Antonio MILLANETTI is a copy of his naturalization papers. MILANETTI, a native of Italy, received his final papers on 22 Septem-

ber 1900 in Chippewa County, Michigan.

And then there is Chan CHU who died on 3 March 1920 of "old age" (he was 59). His original Certificate of Residence (early "green card") is with the coroner's inquest. Other papers have included car registrations, voter's stubs, and even a taxi cab permit.

It is unknown at this time when these microfilmed records will be available through the Family History Centers, but hopefully someday, researchers may be able to use them to track their ancestors.
