FOR FASTER RESEARCH PLEASE READ THE FOLLOWING:

Page numbering for this work appears in the upper right corners, and the surname index is keyed to these page numbers. Columns, as arranged from left to right, follow the standard census book format: #1—family number; #2—surname and given name; #3—age; #4—place of birth; #5—the (x x) that appear occasionally indicate that parents were foreign born: left (x) indicating father, and right (x), mother; #6—occupation of males, with an occasional marking for females, if other than housekeeping; #7—value of real estate; #8—value of personal property. Sex is not given, unless there might be some doubt. In those cases "M" or "F" will appear between columns #3 and #4.

Census page numbers and date of information from the microfilm are interspersed across the first two columns for research reference.

Care has been taken to copy the manuscript exactly as it appears, where legible. The compiler has considerable knowledge of county families from compiling similar information, and this has contributed toward accuracy of deciphering many of the questionable original entries. With some prior knowledge of families being considered, one might do well to view the microfilm for verification of listings.

If precinct or township of origin is known, searcher can refer to the following key for faster reference from the index:

**ALPHABETICAL INDEX BY SURNAME—pages 379 through 393, in Volume II  
1870 CENSUS OF CLARK COUNTY, ILLINOIS**

Anderson Township listings appear	pages 1 to 20
Auburn	20 to 32
