PREFACE

GREENWOOD CEMETERY is a clean, well kept cemetery.

PAYNE CEMETERY is an old cemetery and clean, although it has been vandalized over the years and several stones are down and only bases for other stones are visible.

ARROWSMITH TOWNSHIP CEMETERY was founded in 1862, organized in 1909 and was formerly STIPP or UNION. It is also well kept.

LOVE CEMETERY is in West Township, it is an abandoned cemetery now farmed over. The stones were at one time piled along a fence, later they were used to fill a ditch near a bridge along the road and are now covered by old concrete fill. Only a few of the records of burials have been found and they are recorded in this publication, some burials were moved to OAK GROVE (Empire Township) and other cemeteries. This is the only known cemetery in west township except the Indian Burial Grounds in Sec.29 (which may have had some other than Indian burials).

In this publication, the known maiden names are in parenthesis () and surnames are capitalized, Example; Jane (Doe) ROWE, is cross-indexed under both DOE and ROWE, with pertinent information under ROWE. Capitalized names in () are previous married names instead of maiden names.

Information was obtained from reading tombstones, courthouse records, obituaries etc., in an attempt to attain as correct genealogical information as possible.

An asterisk * has been placed in the surname column, to denote a missing name or reference added to the addendum for that cemetery
