## Report of Superintendent of Schools.

To the town of Mechanic Falls;

I herewith submit my report as superintendent of schools for the year just closed.

The school year has been one, generally speaking, of interest and profit to all concerned, and I have to return my sincere acknowledgements and thanks for the cordial sympathy and support extended by the great majority of our citizens towards the maintenance of the high character and standing of our schools in all departments. A few have seen fit to exercise the undoubted prerogative of American citizenship, to find fault and criticize; in most cases with bad reason and worse judgment. If the same amount of energy had been expended in an honest attempt to better the condition of the schools, instead of indulging in unjust and indiscriminate criticism, a much better state of affairs might have resulted to the schools and the community alike. I am assured that the cultivation of a more intimate acquaintance with, and knowledge of our teachers and scholars, and the work of the schools, would disarm much of the unfair and unmerited fault-finding.

\* The education of our youth is a cause in which all ought to unite in bestowing every best effort and earnest consecrated labor.

Our town is doing its best to keep pace with the highest requirements of the times in educational lines, and it is gratifying to note that when scholars come to us from other towns and cities, they readily find their proper places in the corresponding grades of our schools.

My personal thanks are hereby publicly tendered each of them for their faithful and unstinted efforts to sustain and advance the standard of our schools.

We renew our remarks of last year in regard to the need of better sanitary conditions about our school houses.

We feel to repeat the suggestion made in our last report, that some fair share of the support of our High School, should be voluntarily contributed by our neighboring towns, Poland and Minot, whose scholars constitute, at least one-third, and sometimes more, of the total number of scholars enrolled therein. Our neighbors should, we believe, abandon the idea of maintaining free high schools in their respective towns, as impracticable, and should each raise a small sum yearly, to be used for paying the tuition of such scholars as may attend schools of proper grade in other places.

This contribution from our neighbors would be a light burden upon them (as under the present law, the state will reimburse them to the extent of one-half their expenditure,) and would enable us to furnish many and better facilities for all the young people who attend this school. We have faithfully attended to our duty in maintaining this school, for the twelve years last past, and the time has come when our neighbors should demonstrate their appreciation, not alone by sending their pupils, but by rendering some material assistance for the common good of all.

Respectfully submitted,

J. M. LIBBY,

Superintendent of Schools.

## Town Agent's Report.

To the Town of Mechanic Falls:

I have attended to all matters referred to me by the municipal officers and am able to report that the town is free from any litigation in the court. No suits have been brought by or against the town during the year. The business of the year has been mainly concerning the adjustment of pauper claims against the State.

Respectfully submitted,

J. M. LIBBY,

Town Agent.
