1918 Alien Registrations: Public safety Commission Records

Also at MHS Archives & Manuscripts are the 1918 alien registrations for all of Minnesota, including Dakota County. There is an every-name alphabetical card file index. Check the card file for the name of your alien (i.e., not a naturalized citizen) ancestor; it will give you the county and city of residence in 1918. Check the "Public Safety Commission" binder on the wall shelves to determine the location and box number for that county and city. Forms are filed in folders in alphabetical order by surname.

The alien registration form is a two-sided questionnaire which was completed and signed by the immigrant and may provide a great deal of information of help to family historians, such as date and place of birth, date and place of arrival in U.S., whether letters of intent had been filed, whether any property was owned, and names of family members - including children - here and abroad.
