SURNAME INDEX

AMITE COUNTY, MISSISSIPPI

1860

Compiled by

Loretta E. Burns
and
Karan L. Randall

PREFACE

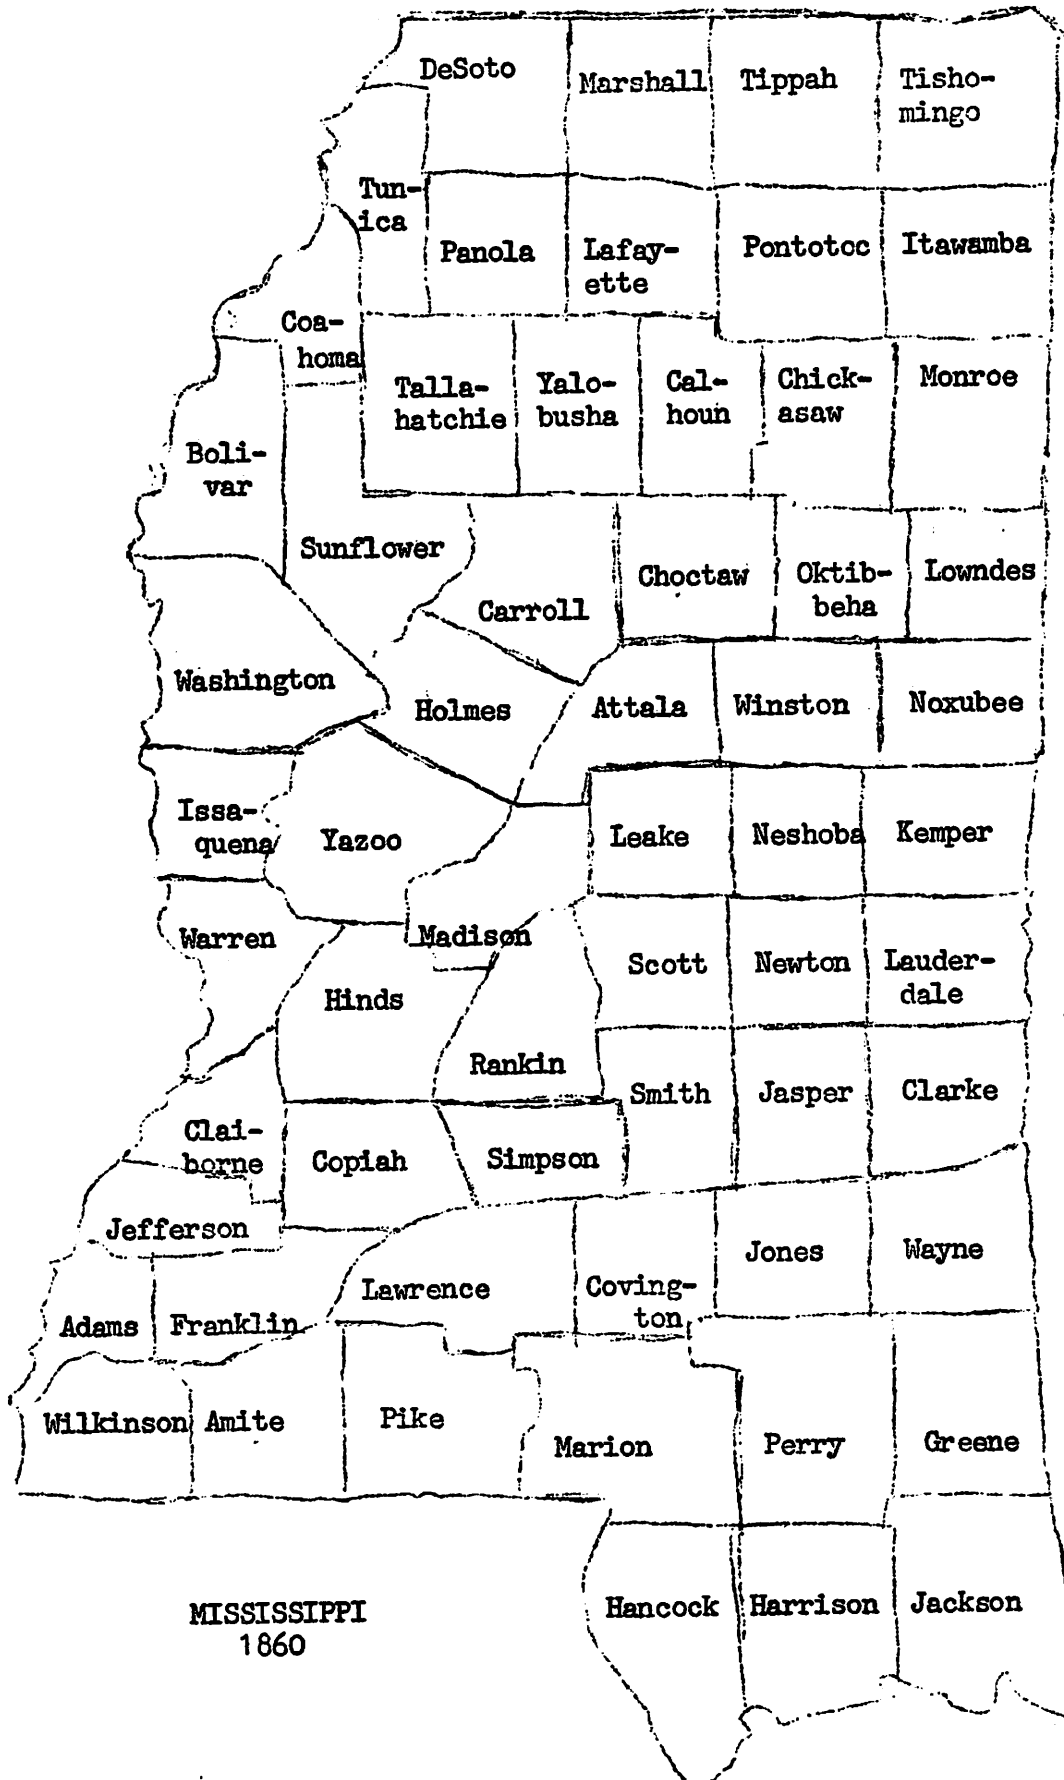

The researchers for this index to the 1860 census of Mississippi make this statement to all users. In indexing this county census, we found the spelling of commonly known names often misspelled. Therefore, we caution you to check various spellings of your surname. In places where the ink was faded or the handwriting not legible making the reading of the name difficult, a ? mark has been placed beside that name to indicate this.

Where the enumerator was of foreign extraction, we have found the family names to be spelled with the phonetic spelling of the enumerator's native language. Example of this is the surname, Oliver which has been listed as Oliva and Olover. The surnames are indexed as they were spelled on the census.

The number following the surname is the family number on the census. Where the enumerator has duplicated numbers this is indicated by a number followed by the letter "a", as in 317, 317a.

Frequently, capital letters written in the old script are difficult to distinguish. I, J, S and L at times resemble each other. This is true also of the letters V and N, T and P. Most genealogists realize the problems encountered in reading and transcribing old hand written records and know that the surnames will be erroneously read from time to time.
