New Research Rules for the Health Department in Belmont County, Ohio

Starting July 1, 2003 the Health Dept. will have some new & restricting rules for us to follow. The rules have been applied after a surprise inspection from the main office in Columbus. {Up to that time they have been trying to accommodate us}

I've included my own personal comments inside these brackets {}. {I have to let off steam somehow!} {This will greatly hamper genealogical research, but not stop it! But, it's something we all have to get used to, even me}

- Before driving out & being turned away, {Like I have} CALL them at 740-695-1202. They will let you know if someone will be available to be in the room with you & what time.
- You are to stop at the desk; they will have you sign your name & the names of all the people you are searching for that day.
- You are not allowed to search for the records yourself anymore; they will do it for you. Although, we are allowed to search:
 - (a) The Bellaire Birth & Death Books they have that the CTGS gave them and are for sale from the CTGS.
 - (b) The black 3 ring binders (2 of them) that have the Belmont County Births (1865-1919) & (1920-)
 - (c) The Martins Ferry Births & Deaths index card files. Hint: There are two sets of Birth records here. {For reasons known to the Martins Ferry staff that put them together}
