We're Getting Our "CENSUS" Together

Locating a family residing in Wood County, Ohio in any particular census year can be made easier by the indexing of each census.

The publishing of this index to heads of households and other last names for the 1850 census completes another link in the chapter's census indexing project.

Existing Census for Wood County

Ohio became a state in 1803. Wood County would have been a part of Greene County at that time.

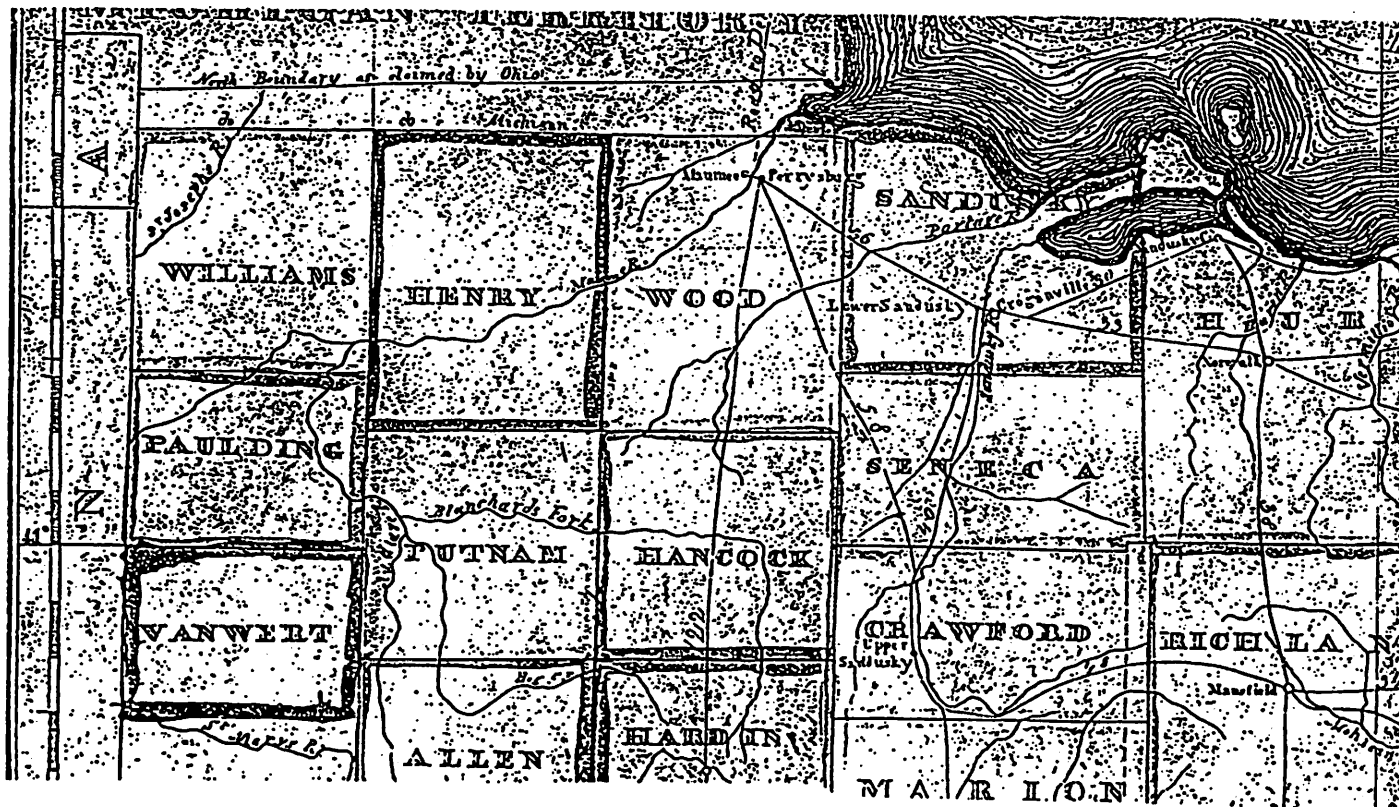

OHIO MAP IN 1803 WHEN THE STATE WAS ADMITTED TO THE UNION

1820

When organized in 1820, Wood County had a population of 733 but as now Lucas County was then a part of Wood, not more than one-third of that number of white persons resided within the present limits of Wood.

An historical gazetteer of Wood County is being compiled by Lyle Fletcher, local historian and geographer, and will be available in late 1988. A re-constructed list of heads of households residing in Wood County in 1820 will be included in this book.

Earliest map of Wood County found in 1821 The Ohio Gazetteer, by John Kilbourn:

1830

In 1830, before Lucas County was detached, the population of Wood County was 1,102. (Lucas County was established in 1834.)

The census of 1830 for Wood County is being indexed by members of the Wood County Chapter of The Ohio Genealogical Society and will be printed in its entirety with the 1840 census later in 1988.

1840

In 1840, present Wood County's population was 5,357. Thy population by townships as then organized was as follows: Bloom, 437; Center, 297; Freedom, 238; Henry, 213; Jackson, 26; Liberty, 215; Middleton, 193; Milton and Weston, including now Grand Rapids, 539; Montgomery, 609; Perry, 559; Perrysburg, 1041; Plain, 272; Portage, 199; Troy, 383; Washington, 244.

The census of 1840 for Wood County is being indexed by members of the Wood County Chapter of The Ohio Genealogical Society and will be printed in its entirety with the 1830 census later in 1988.

1850

In 1850, the population of Wood County, Ohio, was 9,157. The INDEX TO THE 1850 U. S. CENSUS OF WOOD COUNTY, OHIO - published in July, 1988, includes all heads of households and persons with different last names with page references to the microfilmed journals of this census.

Microfilm of the 1850 census for this county may be researched in Bowling Green at the Wood County District Public Library and the Center for Archival Collections located on the 5th floor of the Jerome Library on the Bowling Green State University campus. In addition, the genealogical chapter purchased a "microfilm book" from S-K Publications, Wichita, Kansas, and it is available for use in the Local History Department of the Bowling Green library.

1860

PROJECT HERITAGE, a hardcover, book was published with copyright 197 . Permission has been granted to this genealogical chapter to reprint this book in soft cover which is the census in its entirety. Work on rechecking each entry is nearing completion so that any necessary corrections can be made on the computer before reprinting.

1870

INDEX TO 1870 U. S. CENSUS OF WOOD COUNTY, OHIO was published with soft cover in October, 1985, and lists all heads of households and persons with different last names. It is available for purchase from the Wood County Chapter. (SEE Publications, last page of this book.)

1880

INDEX TO 1880 U. S. CENSUS OF WOOD COUNTY, OHIO was originally published as twenty-one separate township indexes listing 9,789 names and representing the total population of 33,985. These nearly 10,000 names have now been placed in a single index and published in July, 1988.

1890

Various fires have destroyed nearly all 1890 schedules throughout the United States. The lists for Union veterans or their widows that survive include Wood County and are available for researching on microfilm in local libraries.

1900 & 1910

Some members of the Wood County Chapter of The Ohio Genealogical Society plan to begin work on indexing the heads of households on the 1900 census as soon as previous census indexes are completed and published.

Some additional helps when researching a census:

- DON'T assume the spelling of the name is as you know it now.
- DON'T believe the census indexes to be complete. Check the microfilm.
- DON'T assume the relationship to the head of the household is as stated.
- DON'T assume the wife is the mother of any or all of the children listed.
- DON'T forget to copy all data from the top of the page and to the right of the occupation column.
- DON'T forget to look over the neighbors. Look for married daughters, sisters, etc.
- DON'T think that the records before 1850 will not be helpful. It will give an indication of the number and ages of people living in the household.
- DON'T forget to look into adjoining townships and counties. Families often owned land on both sides of a road, which may have been a township or county line.
- DON'T forget to look for other types of census that were taken, such as state or school enumerations.

Enjoy:

THE CENSUS TAKER

The Sences Taker in our town, bein taken sick, he deppertised me to go out for him one day. And as he was too ill to giv me informashun how to perceed, I was consequently compelled to go it blind. Sittin down by the road side I drawd up the follerin lists of questions which I proposed to ax the people I visited:

Wat's your age? Whar was you born? Air you marrid? and if so how do you like it?

How many children do you ogt? And do they suficiently resemble you as to proclood the positifly of their belongin to any of your naber's?

Did you ever hav the measles, and if so how many? Hav you a twin brother sevral years older than yourself? How many parents hav you? State wether you are blind, deaf, idiotic or got the heaves.

But my questions dident work. I got in a row the furst house I stopt to with some old maids. Disbelivin to their age, I endeavored to open their mouths and look at their teeth, same as we do with horses, but they floo into a vilent rage and tackled me with brooms. Taken the sences requires experience, lik any other bizniss.. Artemus Ward

1850 CENSUS OF OHIO
WOOD COUNTY

In 1850, the population of Wood County is recorded to be 9,157. This was an increase of 3,800 during the previous ten years. The only village for which the census was taken separately was Perrysburg. Since Bowling Green was not incorporated until 1855, one must look at both Center and Plain townships to find those whose residence lay within the yet-to-be-determined boundaries of this village.

Compiling an index to all heads of households and other last names appearing on the 1850 Census for Wood County, Ohio, has been prepared by the Wood County Chapter of The Ohio Genealogical Society. Thanks go to the efforts of Darlene Lewis for spearheading the project as well as countless hours copying and proof-reading. More thank yous go to Lynette McCullough who also spent hours reading and copying the names from the microfilm; and to Karen Wasson for the typing.

An * has been placed in front of those names which proved difficult or illegible to read because of spelling or handwriting on the part of the enumerator. For example: *MICHE, Oust.

If you cannot find the surname you are researching, please remember that spelling and/or handwriting errors may account for this and do try another interpretation. The capital letters L and S look similar at times and the lower case n and v can be confusing, as well as many others. All those involved hope as few errors as possible exist in this publication.

Following is an explanation of the county/township code used in this index. For example: WDMT = Wood County, Montgomery Township. A county map (1886) has been included to help the researcher locate townships and their borders.

BLOOM - WDBL
CENTER - WDCE
FREEDOM - WDFR
HENRY - WDHE
JACKSON - WDJA
LAKE - WDLK
LIBERTY - WDLB
MIDDLETON - WDM D
MILTON - WDMI
MONTGOMERY - WDMT

PERRYSBURG TWP - WDPG
PERRYSBURG TOWN - WDPG
PERRY - WDPE
PLAIN - WDPL
PORTAGE - WDPO
TROY - WDTR
WASHINGTON - WDWA
WEBSTER - WDWB
WESTON - WDWE

Note: On 3 occasions in these census records the enumerator came to the end of his pages and put children's names of a family on the next page which then listed the child of this family in another township. You will have to go to that next page to pick up that family member/s. The following families come at the end of a particular township:

- Henry Coppus family of Henry Twp (pg 272) have three children listed on pg 273 of Bloom Twp.
- John Jewell family of Plain Twp (pg 320) have one child listed on pg 321 of Washington Twp.
- Horace Millier family of Washington Twp (pg 332) has one child listed on pg 167 of Middleton Twp.
