INDEX TO WORLD WAR I DRAFT REGISTRATIONS FOR OREGON

PORTLAND, DISTRICT #2

While compiling a state-wide index to Oregon's World War I draft registrations, it was discovered that a section of Portland Registration District #2, which should have been at the beginning of reel 22 was missing. After the Family History Library microfilmed these records, apparently that original film was misplaced. As a result, they were not reproduced on the microfilm as distributed through the Family History Library system. The originals are in the custody of the East Point, Georgia branch of the National Archives. Photocopies of the originals were made by volunteers who traveled to Georgia and can be found in hard copy at the Forum Library.

Included in the index is the name of the registrant, year born, registration district, and information to help you find the card on the microfilm. Many cards are misfiled, and a "correction," or how the card is actually filed is indicated. The index to Oregon's World War I Draft Registrations can be purchased on CD-ROM from the GFO for \$10.

## Some Union Veterans In Oregon

Extracted by L. M. Wilson from *Honor Roll of Oregon GAR 1881 - 1935* by Jane Myers, publ. 1980

## OCCGS REFERENCE ONLY

The American Civil War caused an approximate 2,250,000 men to be under arms in the Union service. Of those an estimated 650,000 died in battle, of wounds, or disease. After the war several veterans groups were formed of which the **Grand Army of the Republic** was the largest. At its peak it enrolled some 400,000 veterans in 1890, having been founded in Springfield, IL in 1866. Eventually 49 states or territories had GAR organizations, the last being Oklahoma in 1890. Eventually this veterans group, that limited its membership to service in the Civil War, declined as death thinned its ranks. Its charter was eventually dissolved in 1956, long after the last veteran had died. (I remember as a Boy Scout in 1940 marching in a parade in Michigan at which the last living Civil War veteran of that state was honorary parade marshall. He had been a drummer boy in a Michigan Regiment, enlisted at age 11 or 12.) However, during its existence the GAR had regular Encampments at which booklets were published listing deaths among comrades since the last Encampment. Most states have such booklets in their State Libraries.

In 1980, Jane Myers researched and compiled the deaths recorded on the rolls of the Oregon GAR from 1881 to 1935. The records available began with the sixth annual encampment and went to the 54th with the exception of the 24th (1905) and the 47th (1928) which were either missing or were not published that year. As she noted the information is as accurate as the data the post commanders forwarded and was transcribed. This does provide an approximate time of death, and based on his post membership, a near location of where he may have lived at the time of his death. While these are not the deaths of all Union veterans in Oregon, as all did not belong to the GAR, it does provide a significant data base. From this base we have extracted those veterans that belonged to units organized in New York. The membership of most such units was entirely composed of residents of that state.

The names are arranged alphabetically, followed by Company, Regiment, and Branch, and then death date and Post number. The Oregon GAR Post's and City locations follow:

1. Portland	22. St. Johns	39. Grants Pass	66. Richland
